

## **SMTA Song (to the tune of YMCA, Village People)**

Suppliers, there's no need to feel down.  
I said, Users, pick yourselves off the ground  
I said, People, SMT tech is sound  
There's no need to be unhappy.

Users, there's a place you can go.  
I said, Users, when you don't even know  
You can go there and I'm sure you will find  
Great solutions and have a good time.....

It's fun to be with the SMTA!  
It's fun to be with the SMTA!  
They have everything that you need over here  
You can hang out with all the engineers.....

S....M...T..A!  
S....M...T..A!  
You can learn something new, you can have a good meal  
You can do whatever you feel....

Suppliers, are you listening to me?  
I said, suppliers, for PCB assembly?  
I said, you can make real your dreams  
But you got to know this one thing!

No one does it all by himself.  
I said, people, put your pride on the shelf,  
And just go there, to the SMTA  
I'm sure we can help each other

It's fun to be with the SMTA!  
It's fun to be with the SMTA!  
They have everything that you need over here  
You can hang out with all engineers.....

S....M...T..A!  
S....M...T..A!  
You can learn something new, you can have a good meal  
You can do whatever you feel....

Manufacturing has moved overseas  
Lead-free assembly pushed us down to our knees  
RoHs Compliance placed on our companies  
Now we wear so many hats too.....

That's when a spam email to me,  
Said, don't worry, take a walk up the street  
There's a place there called the SMTA  
They can start you back on your way

It's fun to be with the SMTA!  
It's fun to be with the SMTA!  
They have everything that you need over here  
You can hang out with all the engineers.....

SMTA....you'll find it at the SMTA

Young men, Ladies, there's no need to feel down.  
Young men, Ladies, get yourselves off the ground.
